HALFMANN

— LAND & LIVESTOCK —

Office: 325.468.2390 • 2501 CR 357 • Miles, TX 76861
info@halfmann.ag • WWW.HALFMANN.AG

Dear Friends,

The cattle business continues to offer tremendous opportunity, but high cattle prices also raise the stakes on every breeding decision. At Halfmann Land & Livestock, our goal has never been to chase a single number or the latest trend. For more than six decades, we have worked to produce Balanced Trait Red Angus that make commercial cattlemen more profitable.

That philosophy starts with the cow. Generations of selection have built a herd of moderate, functional, docile females that breed back, raise a calf and work in our environment. We have no tolerance for open cows, and we believe reproductive efficiency remains one of the greatest drivers of ranch profitability. That focus is reflected in this year's offering through strong Fertility and \$Ranch genetics.

At the same time, the cattle industry continues to reward performance beyond the ranch gate. Growth, feed efficiency and carcass value all have a direct impact on the value of the calves you produce. That is why we continue to place greater emphasis on identifying cattle that can convert feed efficiently without sacrificing the maternal, growth and carcass traits that matter. Efficiency is about producing more value from the resources we already have.

Our bulls undergo visual appraisal, individual feed intake and feed-efficiency testing, carcass ultrasound and genomic testing. Combined with Red Angus EPDs and \$Profit data, these tools give us more information than ever to identify genetics that can improve profitability from conception through harvest.

We don't expect one trait to carry a breeding program. We believe the most valuable cattle do many things well such as building functional replacement females while producing efficient, high-value feeder calves. That is what we mean by Balanced Trait Bulls.

We invite you to join us in Miles, Texas, on Wednesday, October 7, 2026, for our annual production sale. Come early to tour the herd and see the cattle and technology behind our program. As always, we're glad to visit about your operation and help you find bulls that fit your goals.

Thank you for your confidence in our program and for allowing Halfmann Land & Livestock to be a part of your operation.

Sincerely,

Cody, Glen and Chad Halfmann

- Five (5) or more bulls earns a 3% discount on total bull purchases.
- Ten (10) or more bulls earns a 6% discount on total bull purchases.

DELIVERY - see page 8

SCHEDULE

TUESDAY, OCT. 6TH:

All cattle will be on display at the Halfmann Sale Headquarters in Miles.

12:00 pm Cattle available for viewing

5:00 pm Refreshments and hors d'oeuvres

WEDNESDAY, OCT 7TH:

8:00 am Coffee & Pastries

11:00 am BBQ lunch

1:00 PM RED ANGUS BULL & FEMALE SALE

SALE INFO

Cattle sell in Catalog Order. Red Angus EPD and \$Profit data used in this catalog are from August 27, 2026. Videos of the sale cattle, sortable catalog data, and supplemental sale information will be available on our website: halfmann.ag and on DV Auction.

BIDDING OPTIONS:

- In person at the sale location (Halfmann Ranch Headquarters in Miles, TX)
- By phone with one of the listed livestock representatives
- Online through DV Auction (see page 8 for instructions)

Be sure to establish your DV Auction account prior to the sale. Also, confirm that you are approved for bidding at least a day prior to the sale.

ABSENTEE BIDS

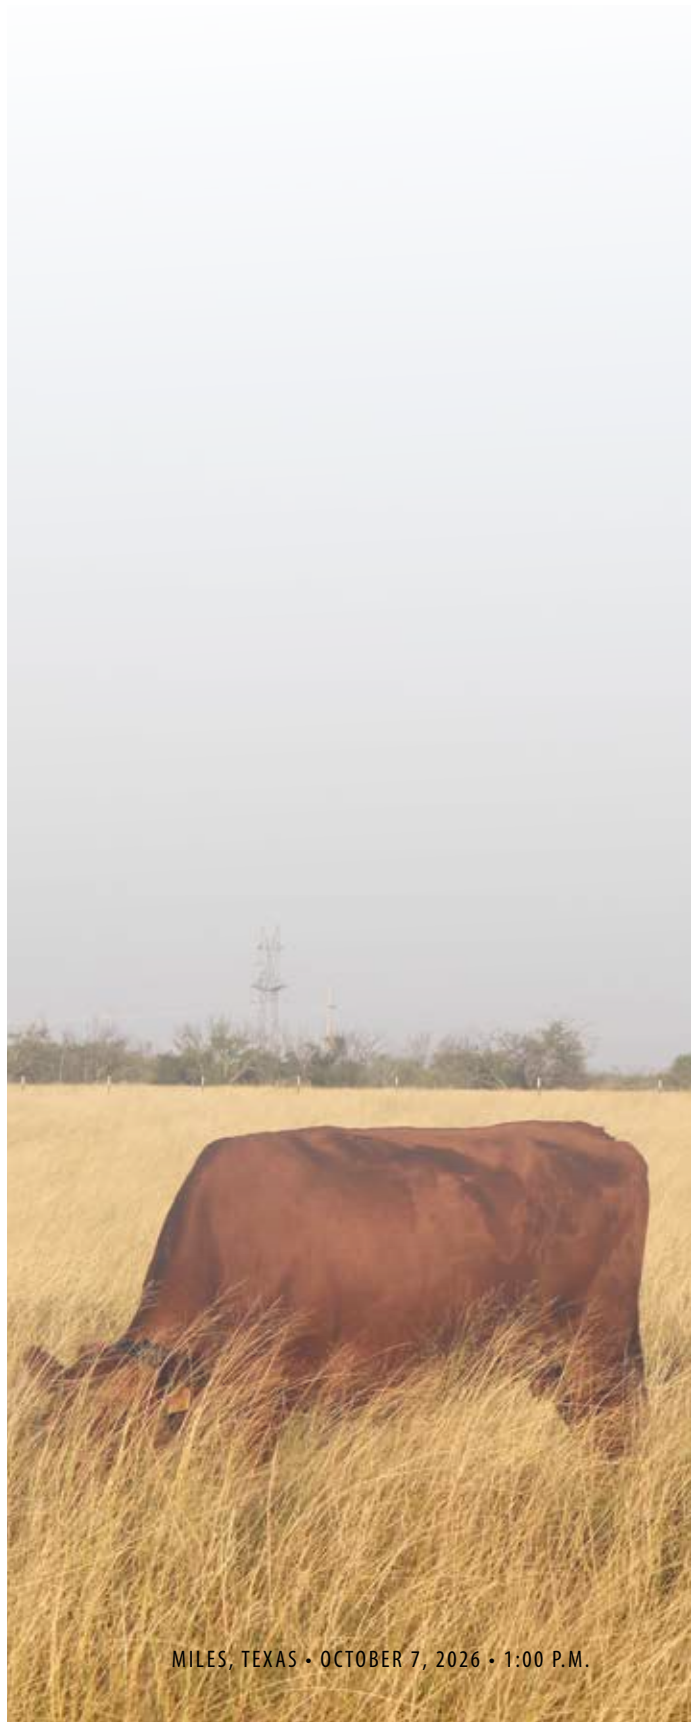

If you are unable to attend the sale, we can help you select the bulls or females to fit your needs. We guarantee Sight Unseen Purchase Satisfaction. Contact us or one of the livestock representatives before the sale. Your bid will be handled confidentially.

FEEDING

Please arrange to pick up or receive your purchases. We will begin shipping on the Monday following the sale. We will hold cattle if needed for 10 days following the sale. Afterwards, purchased cattle will be assessed for feed at \$5/head/day.

Terms & Conditions

BIDDING DISPUTES

The Auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS

Terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold. Insurance will be available sale day.

HERD HEALTH

We have a comprehensive herd-wide health program which includes vaccinations for 7-Way, IBR, BVD, PI3, BRSV, Lepto, and Ivermectin. All heifers are also vaccinated for bangs and vibrio. All Halfmann animals have been tested negative for BVD PI. All the bulls will have a general health and fertility examination prior to sale day. Interstate health papers will be furnished for each animal in accordance with Federal Regulations.

TRICHOMONIASIS TESTING

Testing will be completed on bulls for all states that require a Trich test. This will be done after the bulls are purchased at our expense. If you are unsure as to what your state requirements are, please call us and we can help determine whether your bull(s) will require a Trich test. Any non-virgin bulls will be Trich tested prior to the sale.

INTERNATIONAL PURCHASES

It will be the responsibility of the buyer to cover the costs of any testing required for export outside of the United States.

CERTIFICATE OF REGISTRY

A certificate of registry will be furnished to the Buyer for each animal after settlement has been made.

ANNOUNCEMENTS

Changes or errors in the information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed matter in the catalog.

BREEDING GUARANTEE

All animals sold are guaranteed breeders by the Seller. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition, free of disease, and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated, at his option, to refund the purchase price, replace the animal with another of equal value, or grant the buyer credit for use on cattle marketed by the seller. The return of the full purchase price shall, in any case, be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense. All animals are guaranteed to be breeders, with the exception of a) calves under twelve months of age; or b) animals shown by Purchaser after sale; or c) gross negligence or willful misconduct on the part of the Purchaser.

SELLER'S SEMEN RIGHTS

Seller keeps a 50% revenue-sharing breeding interest without possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding.

Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest unless otherwise agreed upon mutually by all owners.

LIABILITY

Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

CONTRACT

The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY

Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

ONLINE BIDDING

DVAuction *Broadcasting Real-Time Auctions*

Never Miss An Auction Again!
Watch & Bid online for FREE!

Can't make the sale?
Let DVAuction bring the sale to you!
Busy during the sale?
Let DVAuction represent your bid!

Visit www.dvauction.com and Register!

It's as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "create new account" tab
2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, at least 24 hours prior to the auction
3. Tune into the sale and make your purchases!

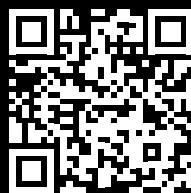

For General Questions Please Contact Our Office:
(402) 316-5460 or support@dvauction.com

*High Speed Internet Access Required

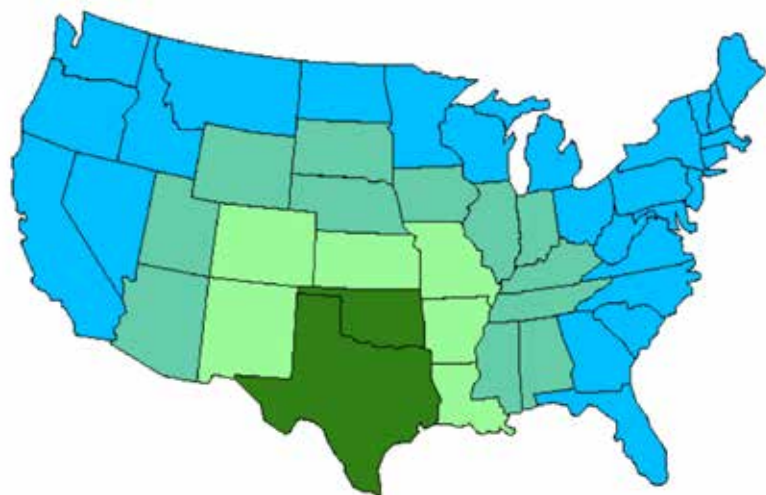

Watch & Bid Online for FREE at DV Auction! We are pleased to offer the Halfman Land & Livestock Sale broadcast 'live' over the internet through DVAuction Services. To bid from your computer at home during the sale, simply complete the following steps:

1. Visit the DVAuction web site at www.dvauction.com.
2. Click on the "Register" tab and enter a user name, password and your contact information.
3. Click on "Apply for Bidding." Select the Halfman Land & Livestock Sale from the list of sales and click "Apply".
4. Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you once you have been approved to bid and buy at the sale "live" from your computer at home. We will also provide you with a buyer number for the sale. After the sale, Halfman Land & Livestock will contact you to make arrangements for payment and delivery of your online purchases. There is no cost to watch or purchase online! Please be sure to apply for bidding by September 29, 2025. Proxy Bidding-If you can't access a computer during the sale, you can now place a "proxy bid" through DV Auction. Simply follow the instructions listed above, and as the sale date nears there will be a Proxy Bidding link under the sale listing on the main page of DV Auction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there. Please Note: You must have high-speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. If you have any questions, please contact DVAuction at 402-316-5460 or email support@dvauction.com This will be a video only sale, no animals will pass through the ring! All animals will be penned at the sale facility for inspection prior to the sale and throughout the auction.

Scan the QR Code to Set up your new DV Auction account.

DELIVERY

• Bull deliveries will be made to central points, and charged as follows:

- TX, OK = \$100/bull
- NM, CO, KS, MO, AR, LA = \$200/bull
- AZ, UT, WY, SD, NE, IA, IL, IN, KY, TN, AL, MS = \$350/bull
- All other states (Continental U.S.) = \$495/bull

• Buyers whose bull purchases total \$20,000 or greater will receive FREE DELIVERY to central points within the continental US.

• Halfmann females sell FOB Miles, TX.

• We will deliver cattle 1 to 3 weeks after the sale, although we will try to accommodate you if you need your bulls right away. We will make every effort to deliver your purchases to a central point as close as possible to your ranch.

• All deliveries are at buyer's risk. Insurance will be available to purchase on sale day. **See Page 4**

The History of...

1725

Joan Schliker marries Margareththa Meybaum (the eldest child of a farmer). It was customary for the eldest son to inherit the farm, but having no brothers, Margareththa assumes that role. The couple share cropped the farm with Margareththa's father (half & half), taking the last name Halfmann (pronounced "HAAI-man").

1825

4 generations later, Johan Heinrich Halfmann is born.

1850

Johan Heinrich "Henry" Halfmann moves from Ludinghausen, Prussia (Germany) to Texas settling near Frelsburg, Texas. He then moves to Runnels county in pursuit of land.

1949

Glen Halfmann is born (great-grandson to Johan Heinrich Halfmann).

1968

Glen wins the San Antonio Reserve Champion carcass of all breeds after being on feed for just 60 days. His county agent C.T. Parker was instrumental in helping form the Red Angus Association. C.T.'s wife Cybil Parker was the first Executive Secretary (CEO) when the Red Angus Association first operated in Ballinger, Texas (the Runnels county seat).

1975

Glen marries Diane Book and returns to work full-time on the family operation. The Book family was a prominent farming family in Runnels county.

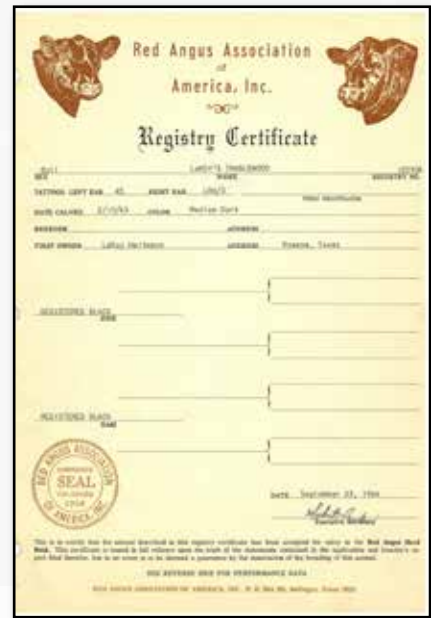

1978-1983

Clifford serves as director on the Red Angus Association of America Board of Directors.

1982

Glen, Chad, Cody & Diane at the Texas Red Angus Field Day

1964

Clifford & Dennis Halfmann (Glen's brothers) purchased the first herd of Red Angus which were direct descendants of Registered Black Angus cattle. "Tanglewood" is the first Registered Red Angus bull at Halfmanns. The Ranch would use the "T" brand until 2018 when the "H" brand was registered for Halfmann Land & Livestock

1973

Glen graduates from Texas A&M University

1983

Clifford Halfmann is recognized for his service on the Board of Directors of the Red Angus Association of America (RAAA).

1999-2001

Cody serves as National Jr. Red Angus President., completing two terms on the Jr. Red Angus board.

2006

Cody returns to the family operation after graduating from Texas A&M University and working at an accounting firm. He assumes the role of managing the day-to-day operations as well as cattle breeding and development.

Halfmann Land & Livestock

2007

Clifford & Dennis Halfmann are awarded Pioneer Breeders of the Year by the Red Angus Association of America.

2008

Halfmann Red Angus holds their first organized bull sale (44 years after private treaty only sales).

2011

Chad returns to the family operation after graduating from Tarleton State University and working in the IT industry. He leads the operations in technology and engineering.

2013-2023

The Halfmann family teams up with Beckton Stock Farm to sell bulls and females through the annual October sale at Halfmann headquarters. The Forbes family are long time friends as well as foundation breeders of the Red Angus breed.

2018

The new "H" brand is adopted to represent the Halfmann last name. Leaving behind the original "T" brand from our foundation Red Angus bull, Tanglewood, whose head mount you will see on our office.

2022

Bull development is moved to headquarters where feedyard improvements are made including the installation of C-Lock Smart Feeder system. This allows us to gather individual feed intake and feed efficiency data. We joined the \$Profit Team to help better describe our cattle. (see back catalog cover)

2026 ANNUAL FALL SALE

Wednesday, October 7, 2026
Halfmann Land & Livestock, Miles, TX

2012 Cody, Glen, Diane, Jessica and Chad pose for a Family Photo after Glen completed his cancer treatment.

2008 Bull Sale

2022 Our new feedyard was completed in 2022 — bringing all bull development home to the ranch.

2026

Halter Virtual Fence was introduced to the cowherd.

UNDERSTANDING YOUR OPERATIONS NEEDS...

Use the Index that best fits your Ranch

\$PROFIT

Developed for operations that raise their own replacements and retains ownership on steers and cull heifers, which are marketed on a Quality Based Grid.

\$Profit assumes a bull will sire 100 progeny over his useful lifespan.

\$Profit Combines all the traits that comprise both \$Ranch and \$Feeder to yield one number that predicts Ranchers' Bottom Lines.

\$Profit Example:

- Bull A has a \$Profit of \$15,000
- Bull B has a \$Profit of \$10,000
- = We would expect Bull "A" to produce an additional \$5000 of profit to the ranch over his service life (\$50 per calf x 100 calves) when compared to Bull "B".**

Multi-generational use of \$Profit will move both \$Ranch and \$Feeder in a positive direction, just not as fast as the singular use of \$Ranch or \$Feeder.

\$RANCH

Developed for cow/calf producers who retain their own replacements and market 100% of the steer calves and cull heifers after weaning.

Traits included in \$Ranch:

Fertility, Milk, Weaning Growth, Cow Herd Feed Intake and Mature Cow Size

\$Ranch Example:

- Bull A has a \$Ranch of \$80
- Bull B has a \$Ranch of \$40
- = We would expect Bull "A" to produce \$40 per head increased profit when compared to bull "B" in a cow/calf operation that raised their own replacements and sold all other calves at weaning.**

Multi-generational use of \$Ranch will ultimately result in: moderation in mature cow size, improved fertility, modest gains in weaning weight, improved stocking rates and ultimately - increased pounds of calf harvested per unit of feed/land resource.

\$FEEDER

Developed to compare how bulls will impact profitability in the post-weaning phase (weaning to harvest).

Traits included in \$Feeder:

Feed Intake, Post-Weaning Gain, Carcass Weight, Quality Grade (Marbling), Yield Grade

\$Feeder Example:

- Bull A has a \$Feeder of \$100
- Bull B has a \$Feeder of \$150
- = We would expect calves sired by Bull "B" to earn \$50 per head increased profit between weaning and harvest when compared to calves sired by bull "A".**

Use of \$Feeder in sire selection will maximize Feedlot Closeouts, but with no regard for the cow herd. Thus, \$Feeder should be used by herds that purchase their replacement females.

FERTILITY

The Fertility EPD (FERT) predicts differences in the calf crop percentage expected from a bull's daughters! High Fertility EPD bulls will build cow herds with consistently better breed back and deliver a higher percentage of calves to the weaning pen.

Higher Fertility also lowers cow herd culling requirements which reduces replacement rates; which in turn reduces cow herd depreciation costs and provides a larger percentage of the heifer calves that can be sold. As you would imagine, these more desirable outcomes drive HUGE differences in profitability, so the Fertility EPD has tremendous impact on \$Profit and \$Ranch.

The Sale Catalog Data Explanation on the top of page 12 shows where the FERT EPD is presented in the sale catalog. The example below is useful for better understanding the trait units of the FERT EPD.

FERT EPD Example:

Bull A has a FERT EPD of 2.5

Bull B has a FERT EPD of 1.1
1.4

We would expect the daughters of Bull A to produce on average 1.4 more calves over their first 8 years of production than the daughters of Bull B.

JIM KOLLMAN
Superior Livestock Representative

PO Box 5961
San Angelo, TX

Docility Score
Every bull was individually scored 1-5, with a '1' being the most docile, and a '5' being the least docile.

\$Profit, \$Ranch, \$Feeder
Please see page 10.

FERTILITY (Cow Fertility)
Predicts differences in the number of calves produced by bulls' daughters by the time they reach the age of 8 years. Daughters from a bull with a 2.0 FERT EPD would be expected to produce on average - one more calf by the time they reach 8 years of age than daughters from a bull with a 1.0 FERT EPD.

F:G (Feed Efficiency)
Expressed in pounds of dry feed required per pound of Gain. Progeny from a bull with a 0.00 F:G EPD would be expected to consume 1/4 of a pound less dry matter per pound of gain than a bull with a 0.25 F:G EPD.

CALVING EASE STARS

For several decades, ranchers have come to count on our Halfmann Red Angus bulls to deliver reliable calving ease. Some need a bull that can be used on heifers that calve out in big country and don't get a lot of attention.

Others want to get all the growth and carcass value they can, and enough calving ease to use on well developed heifers that are close to headquarters and observed at calving. These bulls have the genetics for pay-weight, carcass merit and cow herd building traits to be useful in the cow herd as they mature and outgrow the heifers.

Annually, we get questions about which bulls we'd recommend to our customers for various scenarios involving breeding and the subsequent calving of virgin heifers. It is with these folks' questions in mind that we have developed a star system to help in this decision making process. The chart below provides detail as to how this calving ease star system can be used.

Stars	Explanation
★★★★★	Elite Calving Ease - 5 star bulls would be the best choice for large commercial heifer breeding projects and/or calving out in bigger country with less attention or management.
★★★★	Good Calving Ease - 4 star bulls would be good choices for well developed british breed and composite heifers that will calve closer to facilities and will be checked regularly.
★★★	3 star bulls should work for Bos indicus influenced heifers that have greater maternal calving ease.
★★	2 star bulls are great choices for "wet" 2-yr-olds and mature cows, but we do not recommend using them on heifers.
★	1 star bulls are approximately "breed average" for calving ease and low birthweight. While we don't recommend them for heifers, they are great for cows and often a great value.
	Bulls with zero stars are below breed average for calving ease and birthweight, and should only be used on mature cows.

Our Calving Ease Stars should not be compared to systems used by other seedstock operations. They are for "within herd" use only. They incorporate information from Calving Ease EPDs, Birthweight EPDs and phenotypic birthweight variation.

BULLS

HERD BULLS

Lot 1

LOT 1

HALFMANN BENCHMARK N286

Leading the 2026 bull offering is Benchmark N286, a standout Titus son who sets the benchmark for combining phenotype, maternal strength and profit-driven genetics. This elite herdsire prospect ranks in the top 1% for \$Profit, \$Ranch and \$Fert, along with a top 5% \$Feeder. Combine his calving ease with a dam boasting a 116 MPPA, and Benchmark offers the credentials to sire top-end replacements while adding value and profitability in the feedyard. Study him from every angle! His added muscle, exceptional rib shape and correct foot design all reinforce his herdsire potential. His dam raised the high-selling bull in last year's sale. She makes the great ones!

Lot 2

LOT 2

HALFMANN SURE BET N307

Lot 2 stands alone! Sure Bet N307 is the ONLY Red Angus animal in the database to combine this level of Calving Ease Direct, Yearling Weight and Marbling. He's a Sure Bet for calving ease and does a whole lot more. This rare genetic package offers big-time semen sales potential for large-scale heifer projects, delivering elite calving ease without sacrificing growth or quality grade potential. We believe in him enough that we used him to breed heifers prior to the sale! With one of the most valuable and unique genetic tabulations in the offering, Sure Bet N307 has the credentials to make an impact on the Red Angus breed for generations to come.

HERD BULLS

LOT 3

HALFMANN PRESTIGE N393

It's hard to build bulls with this kind of look, mass and durable structure! Prestige N393 lives up to his name, mashing the scales at weaning and yearling while easily sorting to the top of the sale for his incredible design. Prestige backs up his powerful phenotype with top 1% rankings for both \$Ranch and \$Fert, giving him the credentials of a true herdsire candidate. Whether you're a registered or commercial cowman, this tank of a bull brings the kind of power, presence and genetic merit that earns the name Prestige. Put him on your short list!

LOT 4

HALFMANN NOBLE N281

This is a "keep you in the cow business" kind of bull. From a numeric stand point he is as balanced as they come. True to the Noble kind, he is very sound structured, has great foot shape, is extra stout from behind and impressive from all angles.

Lot 4

AGE-ADVANTAGE BULLS

LOT 5

HALFMANN TITUS N310

Here's the epitome of a "wide body" bull! We like his kind and love that he can have this much mass and still be called calving ease. His big REA and marbling measures pushed him to have top 5% rankings for both Herdbuilder and Gridmaster. The Titus sons are consistent for added muscle, dimension and being wide bodies!

LOT 6

HALFMANN NOBLE N280

Calving ease specialist! This moderate framed Noble son was used to breed our heifers because we like his calving ease numbers and build. Two things keep cattlemen in business: fertility and calving ease! Here's a bull that has both. Note, he was pictured after breeding heifers and still looks this good!

AGE-ADVANTAGE BULLS

LOT 7

HALFMANN TITUS SI N260

The highest \$Profit bull in the sale! He rings the bell with top rankings for \$Ranch, \$Feeder and \$Terminal. Halfmann Titus SI N260 is the only bull in the entire offering to do this. Invest in this bull if you like big returns at the ranch and in the feedyard! And, you will like to look at him because this dark red bull is flat good.

A well balanced female concludes the female offering. She keeps \$Profit, \$Ranch and \$Fert at a high level and will add value to your program.

SERVICE TYPE: AI
SERVICE SIRE: PROLIFIC
DUE DATE: 1/1/27

THIS FEEDING SEASON, USE NUTRIENT RICH MIX 30 LIQUID FEED.

Suppling 16% Protein, 10% Fat and other essential nutrients, MIX 30 can get your cattle through the toughest seasons of the year economically.

Vaccinate Your Cows and Heifers to Help Protect Your Next Calf Crop

Infectious reproductive diseases can result in abortions, embryonic death, stillbirths, weak calves, and reduced pregnancy rates in beef cattle. These can add up to significant economic losses:

Loss of \$93 Per Head

Due to decreased performance and fatalities when cattle are exposed to cattle persistently infected with bovine viral diarrhea (BVD) virus.¹

Up to 60% of Herd Affected

By abortion storms during natural outbreaks of infectious bovine rhinotracheitis (IBR).²

CattleMaster[®] GOLD

Help Protect Any Cow. Any Calf. Anytime.

To help guard cattle from the most common reproductive pathogens, CattleMaster Gold FP[®] 5 L5 combines:

- ✓ Inactivated BVD virus Types 1 and 2 that help protect against BVD persistent infection
- ✓ Safe and proprietary temperature-sensitive IBR (tsIBR) virus to provide fetal protection against IBR abortions
- ✓ Provides comprehensive protection against five common *Leptospira* spp. serovars

Help Protect Your Investment

Use the only killed BVD vaccine that offers fetal protection.

Provides Demonstrated Safety and Efficacy

CattleMaster[®] Gold can be administered to cows and heifers with unknown vaccination histories. In studies, CattleMaster Gold provided:

100% Protection

Against BVD virus Types 1 and 2 persistent infection.³

92% Reduction

In IBR abortions or stillbirths following a virulent IBR challenge.⁴

Normal, Healthy Calves

Delivery of normal, healthy calves when pregnant cattle were vaccinated.⁵

RED ANGUS VALUE-ADDED PROGRAMS

How to Enroll in Angus Access & Allied Access

1. Contact the Red Angus value-added department at **940-477-4593** and complete a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.
